

# BATTS

For those who make their own comforts The Maish Laminated Cotton Down Batts are made in one piece. With these Batts all the tedious piecing of narrow strips is done away with.

Just spread out the covering, unroll the Batt and the comfort is complete, uniform in thickness at every part.

The only way a comfort can be made at home that will be anything like the Maish in loftiness, lightness and warmth is by the use of these Maish Batts. They are different from the ordinary batt.

We have these Batts in extra, medium and summer thicknesses, one piece 72 x 90. Ask to see these Batts.

**Globe-Wernicke**  
Sectional Bookcases

ONCE books either overcrowded limited shelf space or empty shelves remained and waited for books. When one bookcase overflowed, a new one was purchased, and its gaping shelves were gradually filled. That was before the Globe-Wernicke period in bookcases. Now, books and their shelves come together. The bookcase grows space with the library. This is the modern way of building a library. This is the Globe-Wernicke idea.
